THURSDAY JULY 3, GLASS FACTORY & MOUNT STANSERHORN

The glassworks at Hergiswil has existed since 1817. The tour starts in the permanent exhibition of the history of glass and glassworks. This labyrinth of scenes leads you through the ups and downs of the 180 years history of the glass factory and directly to the incandescent glass furnace. With a good view to the glass makers' platform, you can observe the craftsmen as they go about their rhythmical work and discover for yourself how glass is formed, blown and cast from the glowing mass. Discover and learn about glass in the exhibition – a stimulating journey of experience through the world of glass. Or let you enchant in Switzerland's only glass labyrinth which opened in June 2010. The entire range, from both the Roberto Niederer and the "Glasi Hergiswil" collections, is on display here. Glassware with minor imperfections also has a certain appeal. Glass in its perfect form, wrapped as a precious gift, can be purchased in the 1st quality shop. Continue again by train to Stans for an exciting trip to Mount Stanserhorn.

First you cross the meadows in the romantic, original Old-time funicular from 1893 with fringed curtains. After an exciting ten minute ride you change over to the world's first open deck aerial cable, which takes you in another ten minute to the 1,900m peak of Mount Stanserhorn.

Waltzing around the Alps... Warning: a trip to the revolving Restaurant Rondorama could be addictive! The glorious views of Eiger, Moench and Jungfrau, ten lakes and 100km of alpine vistas, not to speak of the fresh alpine air and the delicious food - you will want to come back here again and again! Return to Lucerne by train.

Rate (min. 5 participants):
